S.204	5/10/2024	An act relating to supporting Vermont's young readers through evidence-based literacy instruction	Education	139	As a former teacher and bookstore owner, and someone who taught literacy to adults, this is a no-brainer for me.

S.220	5/10/2024	An act relating to Vermont's public libraries	Education	150	I supported this bill because I think what kids read after they turn 12 should remain between them and the librarian. For the next two years, at least, this will not affect electric bills. Also, news of the cost being \$500 million is very misleading, as this is what the next ten year of electric would cost now. VEC is slated to get money back from this that will be passed on to consumers.

This part is just a study. In 2025 the report will come back and we'll vote on whether or not implement it. The rant of a 70 cent increase was wrong, unfair and unproven. I was able to get amendments added to this that increased weatherization for mobile home owners as heat pumps don't really work in them.

It passed the House by a moderate margin. I did vote in favor of this because I started smoking menthols at 13. But I've had some time think about this, and I would now only vote for the flavored vape ban that affects kids.
